THE SINGLE-ORIGIN

COLOMBIA SINGLE-ORIGIN

In Colombia, coffee is a real cornerstone of the country's economy and culture.

In the department of Huila, between 1600 and 2000 metres above sea level, grows the Arabica selected for the Trismoka single-origin collection, harvested by hand and processed according to the washed method: a coffee rich in aromas, characterised by a pleasant medium-high acidity and notes of ripe fruit.

Available formats: 250g
